

Durga Charan Tadi

SENIOR SOFTWARE ENGINEER

ABOUT ME

Master's Degree with 6+ years of IT experience in developing and maintaining web-based applications. Dedicated software professional with a history of meeting organizational objectives through consistent and organized practices. Organized, dependable, and effective at managing multiple priorities as a lead and as a team player while maintaining a positive attitude.

EXPERIENCE

SENIOR SOFTWARE ENGINEER

HITACHI | Dec 2022 - Present

Developed and maintained a web-based application using Angular and Pega PRPC for Toyota's technical assistance workflow application. Responsible for architecture design and development, as well as leading the team to ensure project success. Worked on developing micro front ends in Angular and REST services with Pega.

SENIOR SOFTWARE ENGINEER

APPLE | Jul 2018 – Dec 2022

Worked on multiple store management projects in various positions, leveraging technologies like Angular, ReactJS, Java, Spring boot and Pega PRPC. Responsible for creating reusable UI components. Worked on mobile application and was responsible for maintaining responsive UI design. Worked on creating Restful web services using Spring boot. Good working experience on Spring core such as dependency injection, annotations, and XML based configurations. Used JPA with entity beans for interacting persistence layers for CRUD operations. Worked on successful release of the projects and was involved in developing, bug fixing, and code deployment to higher environments.

UI DEVELOPER

I3GlobalTech INC | Feb 2018 – Jul 2018

Worked on developing and maintaining a ReactJS application for the project timesheet tracker. Worked with react routers for developing single page applications. Responsible for creating Restful APIs with NodeJS. Worked on version control Git on daily basis to keep track of the code history.
